

Memo: To all End Users and Resellers Looking for a Converged Fax and Voice Solutions

Are you searching for a fax server solution for initial deployment or upgrade?

Make sure you choose time-tested, industry-leading technology that includes the latest 21st century fax innovations for high performance, seamless integration, and easy scalability.

Here are the features you should be looking for:

- Dialogic® Brooktrout® FoIP software/board drivers
 - Built on Microsoft .NET Framework 3.5 and above
 - Supports Active Directory
 - Runs on Microsoft Server 2003 or 2008 (64 & 32 bit)
 - Inbound PDF formatting
 - Integration with Microsoft Exchange (2003, 2007, 2010)
 - Supports Virtual environments & distributed processing
 - SQL Server 2008 or SQL Express
 - Web Service/SOA SDK to reduce integration time
 - SharePoint Server 2007 Native Integration
 - Pure web interface (IE 6.x 7 & 8, Safari, and Firefox)
 - FaxCore/CPE/SaaS Hybrid combines simplicity and security
- 

FaxCore offers both a Standard and Enterprise version of its FoIP and boarded solutions containing all the items listed above. Highlighted features are included in both versions at no extra cost. Dialogic® Brooktrout® Fax offers all-software FoIP or boards supporting both TDM and IP.
